

Billy Hippo

Make your own Billy Hippo frog!

You will need:

1 toilet roll

Coloured pens or paints

A pair of scissors

4 pipe cleaners

1. Colour or paint the toilet roll in your favourite froggy colours.
2. Using a pencil make a mark three quarters of the way up the toilet roll. Take the scissors (you might need an adult to help you) and cut a V-shape out of the toilet roll at the point where you made your mark. This makes the frog's mouth. Take a look at the picture opposite to help you.
3. Colour the frog's eyes and cut them out. Stick them to the top of the tube, just like in the picture.
4. Colour the frog's hands and feet and cut them out. Make a small hole in the circle marked on them.
5. Push the end of a pipe cleaner through each hole. Make a small loop on the end of the pipe cleaner to stop it pulling back through.
6. Make four holes in your tube and push the other end of the pipe cleaner through. Make a small loop again on the inside to stop them pulling out.

Your frog is ready to help Billy Hippo learn to swim!
Splish Splash!!!
